

Welcome to
the America West Arena,
home of the Phoenix Suns
and showcase for the 1995
NBA All-Star Weekend. The
Valley of the Sun is proud
to join with basketball fans
from around the globe to
admire athletes known to
be the finest in their field.

The City of Phoenix, as well, is extremely proud of a group of local professionals known worldwide for their excellence. These men and women are dedicated firefighters, committed to the emergency service needs of the metropolitan area.

The America West Arena is built on a site previously occupied by a city fire station, and today has an integrated emergency medical system unlike any other sports arena in the country. Fans and professional athletes alike receive the same advanced life support care delivered to businesses and homes of our community.

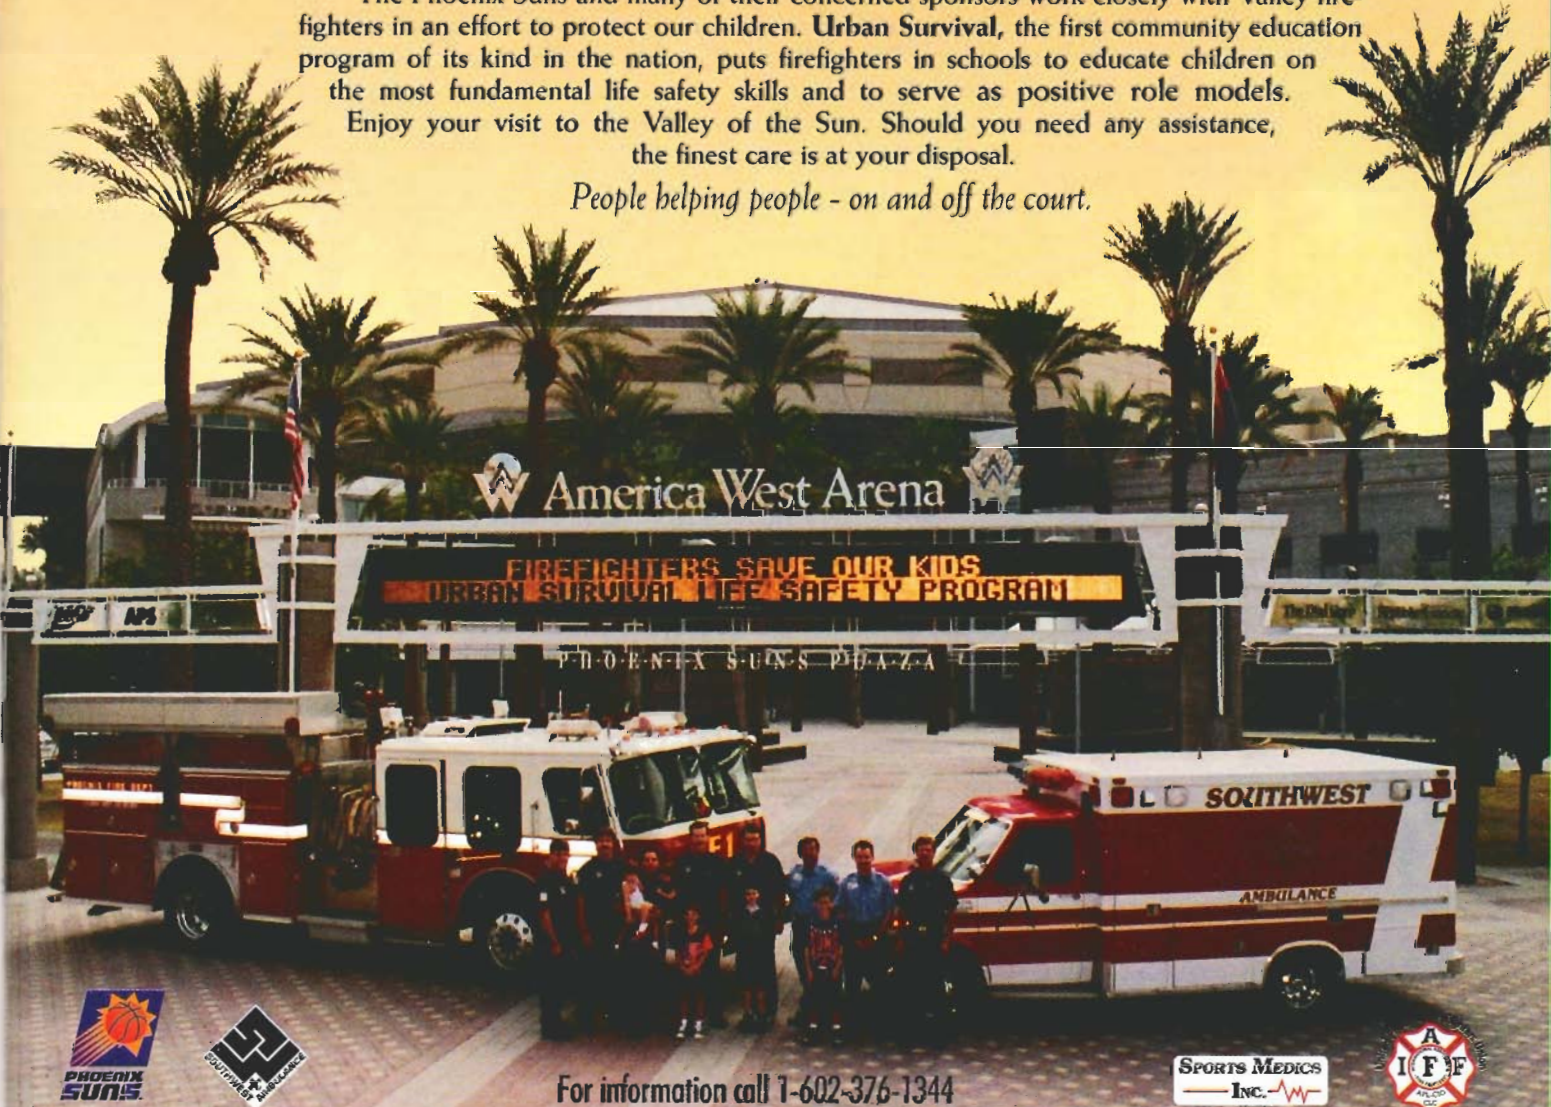

Off-duty firefighter/paramedics have worked together since the completion of the Arena to insure that the standards of care inside the building reflect those practiced on our city streets. State of the art communication and emergency medical equipment complement the highly trained personnel who use them. Paramedics Unlimited provides emergency medical coverage for spectators. Sports Medics, Inc. and Southwest Ambulance work under the direction and in support of noted orthopedic surgeon and Suns' Team Physician, Dr. Richard

Emerson, and his medical staff to assist the professional athletes. Everyone involved in the program is a proud member of the International Association of Fire Fighters.

The Phoenix Suns and many of their concerned sponsors work closely with Valley firefighters in an effort to protect our children. **Urban Survival**, the first community education program of its kind in the nation, puts firefighters in schools to educate children on the most fundamental life safety skills and to serve as positive role models.

Enjoy your visit to the Valley of the Sun. Should you need any assistance, the finest care is at your disposal.

People helping people - on and off the court.
